Farties leaving the city during the heate term can have the DAILY NATIONAL REPUBLIcan mailed to their address by sending their directions to the business office at the low price of 50 cents a month, prepaid, including postage. By this means they will have daily information of what is transpiring at Washing

Conourss ought to be convened by the 1st of September at the farthest. The con dition of the country demands it. The President cannot but see the necessity for this, and that the sooner the proclamation is made the better for all concerned.

Ir both houses of the last Congress had been Republican, the country would not have been threatened with such a contraction of currency by hoarding it in the treasury as is now bound to occur. A Republican House would have pail some heed to the recommendations of the Democratic President and adopted measures to reduce the income as he advised. Mr. Cleveland recognizes this fact.

Tue Atlanta Constitution, which is good Democratic authority, says:

For Mr. Carlisle's tyrannical attitude in precenting the consideration of legislation which would not only have prevented the accumula-tion of an unnecessarily large surplus in the treasury, but which would have relieved the people of the burdens and oppressions of the infamous internal revenue laws, the whole Democratic party must be hold responsible.

Precisely, and whatever of disaster follows this action of Mr. Carlisle, the Demeratic party must answer for. Mr. Carlisle usurped power, never conferred by law or custom, to prevent the passage of remedial laws, but Democrats elected him to Congress and Democratic congressmen elected him speaker, and will probably do so again; and the Democrats must accept the full responsibility. The Constitution states the case properly.

Bow Would It Be Without a Tariff? The exports of British iron and steel in April were 821,278 tons, against 270,293 tons in April, 1886. Notwithstanling this heavy excess, the values of the exports do no show a correspondingly heavy increase. The total volume of the exports in April was £1,917,253, against £1,833,764 in April, 1886. The exports during April were smaller than in March, but exceeded the exports of January and February. Pig iron showed the largest increase over the same months of 1886, due chiefly to a better demand from the United States and Russia. A beavy decrease is shown in the tin plate shipments, due to falling off in demand from the United States. Exports of all kinds of British iron and steel for the past four months amounted to 1,214,711 tons, against 968,972 tons in the same period of 1886, and 936,904 tons in 1885. The United States continues to be Great Britain's best stomer for iron and steel. In April the United States took 107,689 tons, or just about one-third of the whole. In April, 1856, the total exports were 270,299 tons. of which the United States took \$1,833 tons, or less than one-third.

### A Defense of Henry George.

EDITOR NATIONAL REPUBLICAN : In your oditotal in to-day's issue of your valuable paper on "The New Crusade," you declare that Dr. McGlynn and others who have followed after this false light, Henry George-this ignis fatuus that shines but to betray—have only to rellect and consider two things—the history of the world and the insignificance of Henry George to enable them to see where his teachings lead. If they consider the history of the world they will learn that all previous repub-lics and all previous civilizations have been destroyed by some artificial cause. That civilization reaches a certain point and then recedes to barbarism. What has been the cause of the ruin and fall of all previous civilizations? Henry George declares it to be the accumulation of wealth in the hands of a fortunate few and the consequent degradation of the masses of the people. That this inequitable distribution of wealth was the result of the monopoly of natural opportunities.

I believe Mr. George is right, and I fur hermore believe that the more that Dr. McGlynn and those who have followed after this faise light reflect and consider the history of the world, the more convinced they shall be of the correctness of Mr. George's theory. I cannot perceive how they will gain any-thing by reflecting upon Mr. George's insig-

The more they cousider him the more sig nificant he becomes. If they study his great work, "Frogress and Poverty," they will learn that as a community progresses-inoreases in wealth—the weges of the laborer and the in-terest on capital decrease. That the increase of weslth goes to the land owner.

That he is right may be shown in a thousand ways. His next important step is to prove that wages are drawn from labor and not from sapital; that is, the laborer creates his own wages before he gets them.

It is impossible for me to follow him further in this brief article.

The briefest space to which his argument in

this particular can be reduced is that the rate of wages is the lowest at which the laborer will corrent to work irrespective of the amount of wealth produced; the rate of interest is the lowest at which capital will seek investment irrespective of the aggregate of production and the remainder of production after deducting those wages, and that interest goes to ground

To remedy this evil Mr. George would place all taxes upon land values and some the un-carned increment of the community for the whole community. I fail to perceive anything wild or dangerous in his remedy. If you do, Mr. Editor, you would beneft a great many readers of your paper by publishing it. You have forgotten that the people of New York in the late mayoralty election considered M-George more significant than Mr. Rossoveit, by a large majority. T. F. M.

The NATIONAL REPUBLICAN is perfectly willing that any friend of Mr. Henry George

should defend his doctrines when he uses is in this instance, courteous language and a reasonable amount of space. It has no controversy with Mr. Henry George himself, and in aneaking of his "instentificance" used the term as relative to the vast array of the wisest men of the world whom his deas antagonize.

T. F. M., quoting "Progress and Pov-erty," Mr. George's book, says "that as a community progresses—increases in wealth—the wages of the laborer and the interest on capital decrease." This is not true as to labor. Since 1850 the wealth of the United States has increased from \$7,135, 000,000 to about \$50,000,000,000, and wages have fully doubled in that time, while the cost of living has been reduced one-half, thus making the money earned now by the laborer worth four times that earned in

The NATIONAL REPUBLICAN has been consistent in upholding the rights of the laboring man—the man who labors with head or hand-and it will continue to do that. It believes that organization for self protection is not only right but a duty they owe to themselves; but it does not believe that the theories of Mr. George on the land question are correct.

It credits Mr. George with being an honest cuthusiast, and so was Peter the Her-mit when he organized the first crusade to recover the Holy Land, but his followers all perished on the way, whilst another crusade, led by the common sense of God-frey of Bouillon, won the victory. The laboring men have another leader, Mr. Powderly, whose sound common sense, as thus far displayed, is in marked contrast with the ideas of Mr George. He can be followed with safety.

We Furnish Them Bread. Of the 121,600,000 bushels of wheat im orted into Great Britain last year three fifths, or 72,000,000 bushels, came from th United States, 20,000,000 from India, 7,200, C00 from Russia, an equal quantity from Austria and Germany together, 7,488,000 bushels from Canada, 3,144,000 bushels from Chili, and 2,960,000 from all other countries. With these figures as an index for the future, there doesn't seem to be any ground to fear an immediate falling off i the English demand for American wheat unless the English government shall con-clude to insist that a good many English stomachs must go hungry or be filled with something besides wheat bread.

Increase in Immigration. The Treasury Department is informed that there has been a large increase in im migration at the port of San Francisco Twelve hundred immigrants arrived on vessel now in quarantine, and 4,000 more are expected in a few days. Secretary Fairchild has authorized the employment of an additional force during the rush.

NEW NATIONAL THEATER.

There will be a change of programme to-night. Dockstader's Minstrels will sing stephen Foster's old time balleds, "Neilie was Lady," "Hard Times," and "Belle Brandon. These songs were given in New York with great success for three consecutive weeks, bein, redemanded by Dockstader's parrons. Week were also devoted to songs of Sullivan, Schu-bert, Mendelssohn, Jensew, Tosti, Fesca Scotch ballads, and songs of Ireland. SUMMER OPERA AT THE NATIONAL.

Scotch ballads, and songs of Ireland.

Stumen offera at the National.

The arrangements for summer opera at the washington public will have ample opportunity to hear new light operas rendered by the fitzgerald Comic Opera Company, under the direct personal management of Mc. H. Fitzgerald. Mr. Fitzgerald was originally connected with the New York Custing when at its best, and this fact coupled with his experience in that line of business should be sufficient guarantee that Mr. Rapley's judgment is as clear as ever on the public requirements. "Namon' will be presented next week, and its success is already assured, the company having reheared for the past week at the National. This opera ran 159 mignis in New York. The following is the cast as at present erranged: Namon, Miss Clara Lane; Ninon de It Enclos, Miss Helen von Dornhoff; Gaston, Miss Mary Greenwood: Maintenon, Miss Janie Reifferth; D'Aubigue, Mr. W. F. Pruette: Marquis de Marsiliac, Mr. Harry Standish; Abbe, Mr. Jos. S. Greensfelder; Hector, Mr. Edward Geryaise, Mr. Fitzgerald's company in Pittsburg will also be cuited into service here as they may be required. Among them are the following: Miss Minnie Ditchyz, Miss Lonise Blauchi, Miss Minnie Ditchyz, Messer, Fred Urban, Harry be Lorne, John Howson, George W. Wade. The McCauli, Abot, Mr. Emilie, Carleton, Gyppy Bacton, and Howsen, George W. Wade. The McCaull, Ab-bott, Erminie, Carleton, Gypsy Baron, and Stetson Companies have been laid under ribute to produce high-grade summor opera for the music-loving Washingtonians. Strauss's "A Night in Venice" will follow "Nanon." and other gems to be produced are "Amprita." by Zibulka; "Gascognei," by Suppe, and "The Bat," by Strauss. None of these have ever Leen given here in English, and both setting and costumes will be new.

and costumes will be new.

ALRAUGH'S GRAND OFERA HOUSE.

The never-wearying "Mikado" will be next week's attraction. That it will be sung and sung well is beyond doubt, the comonary being more than ordinarily well qualified to give this buriesque. Mr. Walter Allen as Ko Ko will be one of the strongest characters, while Broderick's stately Pooh. Bah is hardly second to any. Montegrillo; (who was the original Nanki-Poo in this country) will take care of that part and the Migado himself will be nor-sonated by the inimitable Solomons. The palance of the cast will be satisfactorily adjusted and a smooth performance result.

A bill of unusual excellence is being pre-pared for the patrons of this popular resort, and the stellar attractions will be duly an-tounced as soon as a programme can be evolved from the large number of artistes under engagement.

"Bound to Succeed" in from the pens of the famous English play writers, George Conquest and Henry Pettillo. It is a strong melodrama, and the press of the country speak in strong terms of both play and company. It "ought to succeed" at the fillin next week. The New York Hereld thus speaks of the play "It is called Bound to Succeed," and is likely to. It called Bound to Succeed, and is likely to. It called Bound to Succeed, and is likely to. It had its first American production at Nibr's lest evening, and was well received. Its story is well worked out; the situations are starting and effective, and there are some very amusing and fairly original characters in the cast, it was, on the whole, well acted last evening, the comedians making decided hits." Pierson. After religious services at the house the

After religious services at the house the remains were conveyed to Oak Hill Cometery, where the interment took place.

The funeral was largely attended by his numerous friends and late associates in office. The deceased was buried according to the rites of the Episcopal church, the Rev. Dr. Gleay, of the Epiphany, officiating.

Capt. Goodrich served as an officer in the 80th Ohio volunteers from the summer of 1851 to the spring of 1853, when he was forced to resign his command by reason of disability contracted in the service. He took an active part in the campaigns of Gens. Grant and Rosecrans in the west, participating in the battles of Inka and Shiloh. He accepted a clerical position in the office of the paymaster general in October, 1863, where he served continuously with great fidelity and efficiency until a few days before his death, which occurred on the 30th ultimo at the advanced age of 73 years.

A meeting of the clerks of the paymenter general's once was held on the 31st ultimo, at which resolutions testifying to the esteem in which the deceased was held were passed.

OHIO LAND CASE.

Farms in Which the Seneca Indians

Have a Claim. Fifty years ago the state of Ohio sold certain section of land (one square mile) of land in Seneca county to private purchasers under the impression that it was one of the sections granted to the state for school purposes. Some years later the claim was raised that this was the property of the Seneca Indians and not of the state, and that therefore the sale was illegal. The case has been hanging in the land office ever since. It is now occupied by twelve or fourteen inhabitants, who have improved farms, and it had until recently an estimated value of about \$50,000 for farming purposes. Lately, however, oil has been discovered in the neighborhood, and the value is presumed to have greatly increased. The commissioner of the general land office has reported to the Secretary of the interior that this section was undoubtedly a portion of the land ceded to the United States to be sold for the benefit of the Indians, and that the state of Ohio never had any right to it. He recognizes, however, the equities in the claim of the occupants, who purchased it in good faith, Seneca Indians and not of the state, and

ever, the equates in the claim of the co-cupants, who purchased it in good faith, and he therefore recommends that the governor of Ohio be called upon to show cause why the land should not now be sold for the benefit of the Indians.

The commission received the answer of the New York, Ontario, and Western Railroad Company to the complaint of Nathaniel W. Howell and others that the rates charged for the transportation of milk from Orange county to Jersey City are unreasonable and unjust. The answer makes a general denial of the charge of the company transports milk at any less rate for any one person, company, or corporation than for another, or that it subjects any particular person, corporation, or locality to any undue prejudice or disadvantage or that it gives any special rate to any shipper of milk.

#### FLOWER MISSION DAY. Arranging for the Visit to the Reform-

atory Institutions. Yesterday's meeting of W. C. T. U. was mainly devoted to the arranging of a programme for flower mission day, Thursday, June 9. This beautiful custom of distrib uting flowers on a set day at the several reformatories, charitable institutions, and hospitals has grown into a work of great magnitude and much interest. Flowers are gathered from all sources, made into bou-quets and distributed in places where their appearance is a rarity heartily appreciated, and by none more than by hospital inmates. Mrs. C. N. Whitney, of 1111 H street northwest, will be in charge of the work of distribution at the initial and will write. distribution at the jall, and will receive contributions of flowers for that portion of the work, and Mrs. S. E. Colnen, 513 F street, will receive flowers for the other recipients. It is hoped that the friends of this beautiful work will send flowers to the above addresses on or before Wedneslay next, and notify the ladies as above of their intention.

Mrs. Leckie, of Philadelphia, recited the efforts of the W. C. T. U. in that city, and encouraged her Washington sisters to renewed efforts, after which the meeting adjourned.

THE PROBATION AGENCY. Getting Into Shape and Already Per-

forming Good Work. Maj. Blood's probation agency, at present quartered in the fifth floor of the health ofice building, has been promised better and more accessible quarters in the new Dis-trict building at the beginning of the entrict building at the beginning of the ensuing fiscal year. Commissioner Webb has
also promised such aid from the appropriation for unspecified charities as it may be
possible to give, and, altogether, the prospect is cheering for the agency. Much
good is expected to be accomplished by the
means of this organization, and already
ten unfortunates have been cared for, four
having been sent to the country to positions, five sent away from the city to their
homes, and one now living at the agency.
The Woman's Christian Temporance Union
has appointed a committee to oc-operate
with Maj. Blood in this work, and practical result of great benefit are expected.
The agency at present can find good use for

orner of Ninth and F streets northwest, and George W. Cochran, proprietor of the cigar stand, was heard yesterday before cigar stand, was heard yesterday before Chief Justice Bingham and Justices James and Merrick sitting in the court in general term. The two cases have been taken up on writ of habeas corpus, the purpose being to test the legality of the law recently put in force regarding selling on Sunday. The grounds upon which the law is claimed to be void have heretofore been published in the REPUBLICAN. Messrs. Walter D. Davidge, Charles A. Elliott, and Charles S. Moore appeared for the petitioners, and Assistant District. Attorney Harry E. Davis for the District. The argument was concluded and the causes submitted, but no decision is expected until next Monday.

was in the ex-Smoky City Saturday, and among other things said:

"This Mugmump element," said Mr. Campbell, "is much larger, much more consistent, and much more respectable than is superficially supposed. Many of the members of it are relies of the old antislavery party who have been in all matters of politics animated by conscientious motives. Principles with them have been paramount to political preferences. I am not a Mugwump myself, but I am familiar with the characteristics of many of the leaders. Mr. Curtis, Carl Schurz, Jones, of the New York Times, are all above the imputation of avarice in their action in this particular, and hence must not be placed in the same class with the ordinary flopper. I am not myself for Mr. Blaine for nomination next year. I think that with Mr. Sherman or some other prominent Republican who is not personally offensive to so many persons in his own party Republican chances of success next year are very. Virginia, judging from its action last fall, may be carried for the Republicans. West Virginia is by no means a safe Democratic State; neither is Tennessee or North Carolina. Schator Camden's defeat in West Virginia has disgusted him with his state politice, and he will hardry take the interest that he has been taking. The couth is rapidly building up with northern capital and the influx of population is largely Republican."

Mr. C. takes a cheerful view of the coming funeral.
